## SPECIMEN EVERGREENS B & B

Sherman's Evergreens have all been transplanted and root pruned. They have also been properly sheared and are grown with plenty of room for development. Our prices are for evergreens securely balled and burlapped. Special prices on carload lots.

All evergreens are sold with the distinct understanding that if they arrive in good condition and are accepted, our responsibility ceases. Due to weather conditions, method of handling and care of trees, we cannot assume responsibility for the successful transplanting of evergreens.

Trucking can be arranged for B & B evergreen orders in quantity. Small orders of B & B Evergreens are packed in baskets or individual containers at packing cost of 60 cents per tree. No charge for loading bulk cars or trucks.

Evergreens are packed and shipped in individual containers as shown at the left, or in baskets—customer's choice.

## SHERMAN NURSERY FROM THE AIR

Here is an airphoto of the nursery and buildings and a part of the 500 acres used in growing strictly first-class, hardy northern nursery stock. On the extreme right is the large packing cellar containing 45,000 square feet of floor space. It is insulated as a refrigerator and provides ideal conditions for handling and packing of our nursery stock. Trees and plants must be handled right as well as grown right.
